MARTIAL ARTS FOR KIDS

AMS Test School in Orlando
Self-Confidence, Self-Esteem and Leadership Skills

Martial Arts for Adults

We all know that we **SHOULD** exercise, but the problem with most exercise programs is that they are just too **BORING**!

Our innovative **adult martial arts program** is totally different. Every movement has a purpose - a purpose that might one day save your life! Some of our students have actually been able to defend themselves from dangerous attacks, while most are grateful just knowing how to avoid trouble.

I'm very proud to say that **HUNDREDS** of adults in the Orlando area have a **BLAST** in every class while learning awesome self-defense skills and watching the pounds melt away.

Students from 18 to 80 also tell us they use the benefits of improved concentration, self-discipline, and confidence every day at home, at work, and in social situations.

[LEARN MORE](#)

Martial Arts for Kids

Our innovative martial arts program for kids can develop your child's focus, self-esteem, self-confidence, and overall sense of purpose the way **NO OTHER** sport, hobby, "activity," or program can.

We're very **PROUD** to say that **HUNDREDS** of parents and families in the Orlando area are singing the praises of our program, and telling other parents about it every day, because they've seen it for themselves, too.

If you want your child to be more confident, more focused, happier, and healthier, then you owe it to yourself to come and see the difference innovative martial arts for children can make in your child.

Martial Arts for Families

Our innovative martial arts program is fun for all Orlando families!

Normally, when you enroll your child in an activity like soccer or basketball, your children participate while you are stuck on the sidelines as a spectator or maybe - if you're lucky - as a coach. On top of that, your child might not even get to play as some of the team members get to "hide the bench."

In our innovative **martial arts program for families**, **everyone participates**: children, parents, and even grandparents can attend classes and progress at their own pace. In our action-packed family classes, no one sits on the bench! Children practice with other children, and adults practice with other adults. Martial arts classes are one of the only family programs where children and their parents get the same kind of healthy exercise at the same time.

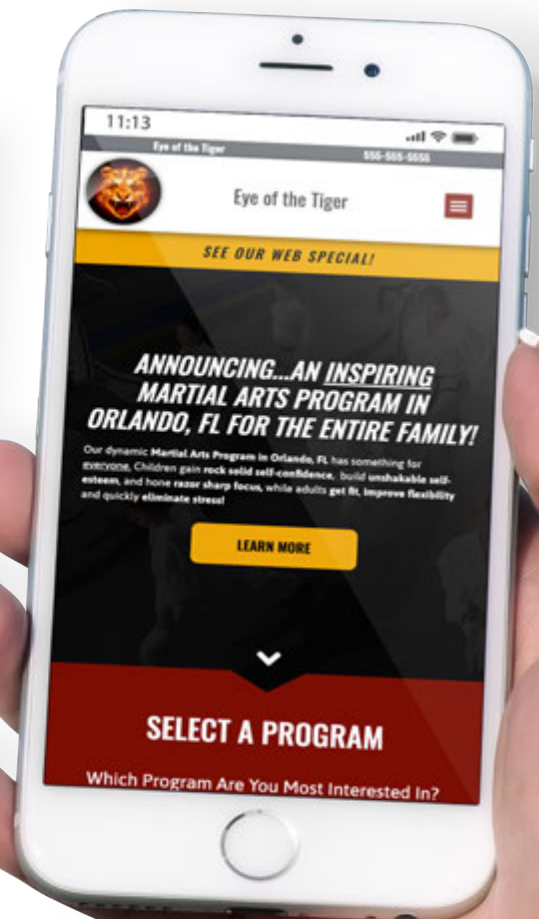

The nicest part is that each member learns to **RESPECT** the other member's strengths and abilities, and to **RESPECT** the other member's weaknesses. This is a truly unique experience.

Capture Prospects Visiting on Any Device

 Capture Visitors Using **Any** Device with Mobile Responsiveness

More than 74 percent of your customers are using a smartphone or other mobile device to visit your website. In this day and age, you **must** be using a 100-percent mobile responsive design to attract new customers.

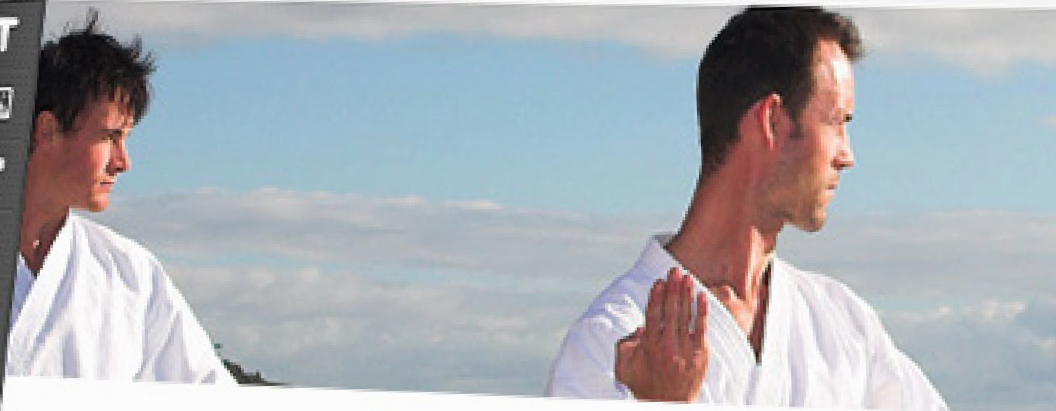

With our sites, whether visitors are using a desktop, laptop, tablet, or smartphone, they will easily get the full impact of your website and you will effortlessly increase your enrollment.
